## **Carolina Sweepers, LLC: *Different From Other Sweeping Companies***

### **Solid Service Philosophy**

- High quality service delivered in a consistent, dependable and knowledgeable manner.
- Professional, white collar management with personal integrity and extensive experience in construction, maintenance and architecture.
- Leaders in the industry as a new breed of quality sweeping company, not just another duplicate of what's already out there.

### **Consistent and Dependable Service**

We sweep established patterns each night. Your lot is swept identically every night through an organized and sequentially arranged procedure. This eliminates driver and the blower operator judgment on what needs to be cleaned or not cleaned. You will not see sand build up on properties swept by Carolina Sweepers, LLC. Nor will you see build up in corners or trash in landscaping. Our procedures include:

- all corners and cart corrals,
- all parking areas near and far from the building,
- all curbs and wheel blocks,
- all building edges and sidewalk cracks,
- all natural and landscape areas,
- all egress drives, and
- all rear service areas.

### **Use of Innovative and Late Model Equipment**

- Our parking area sweeper trucks are equipped with Global Positioning Satellite systems (GPS) to daily monitor sweeping activities from the previous night. We know when the sweeper arrives on and leaves your property. The GPS even shows the path taken throughout the sweeping routine! In addition, the system shows when the driver's door opens and closes for the purpose of handpicking trash and debris.
- We maintain our sweepers so they will perform to manufacturer's OEM specifications. This ensures they will provide optimal performance on your property, and do so with minimal mechanical malfunction.
- We maintain a backup sweeper, available by radio, for immediate service in the event of a breakdown.
- Our sweepers are the quietest models available in the marketplace.

### **Motivated Employees**

- Employees of Carolina Sweepers, LLC are motivated to perform at a high level.
- Our ongoing professional training programs enable us to offer the most thorough and reliable service procedures in the Triangle.
- Our employees are proud of their company and their work. You'll see this enthusiasm reflected in their service.

*"Well done is better than well said." –Benjamin Franklin*
